

CAN THE DESIGN TO OPERATE PROCESS BE SECURED
DIGITALLY END-TO-END?

WHY
NOT?

Virtual production safeguarding and virtual commissioning
through integration of FASTSUITE Edition 2 and SAP ECTR

cenit

DIGITAL MANUFACTURING WITH A CONSISTENT AND DIGITALLY COMPLETE DATA MODEL - FROM DESIGN TO OPERATE

With the integration of FASTSUITE Edition 2 and SAP ECTR, CENIT closes the gap between engineering and manufacturing with an integrated, powerful **Digital Factory Solution** that complements SAP's Intelligent Product Suite perfectly.

FASTSUITE Edition 2 links the worlds of product development and plant planning, and fully supports the process of digital production planning and security right up to the virtual commissioning of production equipment or plants.

HIGHLIGHTS:

- independent of CAD/CAM systems
- with direct integration into SAP ECTR / FCTR-
- with project document management in SAP
- with exchange of process information
- with resource management (simulation resources)

APPROACH:

- Production processes are mapped realistically for the entire area of digital manufacturing – from engineering and simulation to virtual commissioning.
- Optimal linking of simulation and manufacturing technology - support of relevant manufacturing technologies and applications via predefined technology packages.
- FASTSUITE's openness, scalability and user-friendliness allow an easy start with fast and concrete project results.

FOR FURTHER INFORMATION ON THE SOLUTION AND FOR A PERSONAL MEETING, PLEASE DO NOT HESITATE TO CONTACT US AT MYQUESTION@CENIT.COM

CENIT is your partner for successful digital transformation. With a broad solutions and services portfolio, CENIT enables clients to optimize their horizontal and vertical business processes. Our solutions are based on innovative technologies in: product lifecycle management, the digital factory and enterprise information management. With interdisciplinary knowledge of the processes involved and their considerable expertise in the field, CENIT consultants provide customers with end-to-end advice to ensure that solutions are implemented with an understanding of the entire value chain.

With a holistic approach and based on trusted partnerships, CENIT takes responsibility for solutions on behalf of our clients. From the initial consultation to the introduction of innovative IT solutions, right through to ensuring a cost-effective operation. The CENIT team adapts to each client, taking a practical approach, which enables measurable operational optimizations.

CENIT has been helping prestigious customers in key industries to gain competitive advantages for over 30 years. CENIT has over 800 employees worldwide who work with customers from: automotive, aerospace, industrial equipment, tool and mold manufacturing, financial services, and trade and consumer products industries.
